CLOSER LOOK Took a good step forward on the surface switch when dropped in to face cheaper early last month; 5 year old showed solid early foot in that heat and the cut back to this trip should help enhance his stamina; barn's had a rough run here and they boast weak numbers with cut backs, but with Leparoux sticking with him he's a big threat; contender.

Record of "claimed from" trainer

At the track Overall record
 Jockey/Trainer combinations

- Quickly identify race flows that favored a specific running style
- Easily find horses that may be better/worse than their PPs indicate

Comprehensive Trainer Form Statistics: There are 36 trainer statistics that DRF is tracking, covering every trainer's record over this year and last year in a variety of situations. Up to 6 of these categories will show up under the bottom PP, depending on the number of applicable statistics. Each trainer stat will list:

- the number of Starts for the trainer in this category,
- the Win Percentage for the trainer in this category
- and the \$2.00 Return On Investment for the trainer in this category.

Category (12 0.17 \$1.83)

Total Number of Starts Winning percentage Return on a \$2 bet

Every performance by every horse in North America is assigned a Beyer Speed Figure that reflects the time of the race and the inherent speed of the track over which it was run, permitting easy comparisons of efforts at different distances and tracks. In this system, 2 1/2 points are roughly equal to one length in sprints and 2 points to one length in routes.

BEYER SCALE

115 + The best horses in the country
 100 + - Good allowance horse or low-grade stakes horse
 90 + - A typical \$25,000 claiming race
 80 + - A typical \$10,000 claiming race
 57 +- Bottom level \$2,500 claimers at smaller tracks

Though the numerical comparison between Timeform Ratings and Beyer Speed Figures is not exactly connected, the most often used rule of thumb is **Timeform Rating minus 13 = Beyer Figure**, which does seem to produce a strong correlation between the two

140+ - An outstanding horse
 130-135 - Above average Grade 1 Stakes winner
 125-129 - Typical Grade 1 winner
 115-124 - Typical Grade 2 winner
 110-115 - Typical Grade 3 winner

Daily Racing Form past performances contain a special set of ratings called Tomlinson Ratings. These ratings appear in the career box above each horse's past performance. These three separate ratings (from 0 to 480) are based on a horse's breeding, and its likely aptitude for wet tracks, the turf, and compatibility with today's scheduled race distance. Distance ratings reflect all performances, regardless of whether races are run on dirt, turf or synthetic surfaces.

A wet rating of 320+ is a horse that merits further consideration on a muddy or sloppy track. The distance ratings, with a rating of 320 considered average, might prove especially useful when handicapping horses who may be better suited for sprints, middle distances or route races.

Tomlinson Ratings are especially useful in maiden races, 2-year-old races, races switched to a main track listed as "sloppy" or "muddy," horses trying mud, slop, or turf for the first or second time, or horses stretching out in distance.

- Inner dirt track
- Disqualified (symbol located next to odds and in company line)
- Dead-Heat (symbol located in company line if horses are among first three finishers)
- Dead-Heat (symbol used next to finish position)
- Race for 3-year-olds and up
- Race for state-breds only
- Restricted race for horses who meet certain conditions
- Race for fillies, or fillies and mares
